Ahmed Mohammed Huzain

Front End Engineer

GitHub: elhuzain
LinkedIn: elhuzain

Summary

A recent Computer Science graduate from the department of Information Systems, actively seeking part-time internship employment opportunities in the field of front-end development, with a preference for roles that are education-focused oriented.

Education

Bachelor of Computer Science 2018 - 2023
Department: Information Systems
Grade: Very Good
Graduation Proj.: E-Authentication System
Grad. Proj. Grade: Excellent
Modern University for Technology & Information - MTI

Deployed Projects

Personal Portfolio Page | Show Project
- Designed UI using Figma
- Implemented using React.js & Styled Components
- Implemented Animation using React Spring
- Responsive web design using CSS Grid & CSS Flexbox

REST Countries API Web Application | Show Project
- Advanced level project by Front End Mentor
- Implemented the given UI Figma design using React.js & Native CSS
- Responsive web design using CSS Grid
- Implemented API fetch & local data caching to increase performance
- Application state managed using Redux & React Redux
- Implemented Search & Filtering features
- Implemented page routing using React Router
- Implemented theme color switcher

Office Landing Page | Show Project
- Designed UI using Figma
- Implemented using React.js & Native CSS
- Switches between Arabic & English languages
- Responsive web design using CSS Grid & CSS Flexbox

Manage Landing Page | Show Project
- Intermediate level project by Front End Mentor
- Implemented the given UI Figma design using React.js & Native CSS
- Responsive web design using CSS Grid & CSS Flexbox

Interactive Comment Section | Show Project
- Intermediate level challenge by Front End Mentor
- Implemented using React.js & Styled-Components
- Responsive web design using CSS Grid & CSS Flexbox
- Application state managed by Redux & React Redux

Interactive Todo Application | Show Project
- Intermediate level project by Front End Mentor
- Implemented the given UI design using React.js & Styled-Components
- Locally saving user to-dos using localStorage
- Application state managed by Redux & React Redux

Experience

Teacher Assistant **2023 - Current**
Courses: Cairo - Egypt
- Linear Algebra I
- Mathematical Analysis I
- Discrete Mathematics
- Object Oriented Database

MTI University for Technology & Information - MTI

Technical Skills

Languages	HTML , SQL , JavaScript , PHP
Styling & UI Libraries	CSS , SASS , Styled-Components
Tools & Frameworks	React.JS , Node.JS , Redux , React Router
Industry Knowledge	Internet Technologies, Computer Network Basics, Database Systems
Microsoft Office Suite	Microsoft Word, Microsoft PowerPoint, Microsoft Excel

Soft Skills

Fluent English & Arabic
Information Communication
Presentation
Time Management
Fast Learning

Certifications

Front End Development Libraries	*freeCodeCamp*	August 2023
Responsive Front End Development	*freeCodeCamp*	July 2023
Developing Web Applications Using PHP	*Information Technology Institute*	August 2022
