Education

Bachelor of Computer Science 2018 – 2023
Department: Information Systems
Grade: Very Good
Graduation Proj.: E-Authentication System
Grad. Proj. Grade: Excellent
Modern University for Technology & Information - MTI

Deployed Projects

Personal Portfolio Page | Show Project

- Designed UI using Figma
- Implemented using React.js & Styled-Components
- Implemented Animation using React Spring
- Responsive web design using CSS Grid & CSS Flexbox

REST Countries API Web Application | Show Project

- Advanced level project by Front End Mentor
- Implemented the given UI Figma design using React.js & Native CSS
- Responsive web design using CSS Grid
- Implemented API fetch & local data caching to increase performance
- Application state managed using Redux & React Redux
- Implemented Search & Filtering features
- Implemented page routing using React Router
- Implemented theme color switcher

Interactive Comment Section | Show Project

- Intermediate level challenge by Front End Mentor
- Implemented using React.js & Styled-Components
- Responsive web design using CSS Grid & CSS Flexbox
- Application state managed by Redux & React Redux

Office Landing Page | Show Project

- Designed UI using Figma
- Implemented using React.js & Native CSS
- Switches between Arabic & English languages
- Responsive web design using CSS Grid & CSS Flexbox

Multi Step Form | Show Project

- Advanced Level Challenge by Front End Mentor
- Implemented form validation using React-hook-forms
- Manual stepper implementation using Redux
- Responsive & Interactive layout using TailwindCSS

Room Landing Page | Show Project

- Intermediate level project by Front End Mentor
- Implemented the given UI Figma design using React.js & Native CSS
- Responsive web design using CSS Grid

Manage Landing Page | Show Project

- Intermediate level project by Front End Mentor
- Implemented the given UI Figma design using React.js & Native CSS
- Responsive web design using CSS Grid & CSS Flexbox

Interactive Todo Application | Show Project

- Intermediate level project by Front End Mentor
- Implemented the given UI design using React.js & Styled-Components
- Locally saving user to-dos using localStorage
- Application state managed by Redux & React Redux

Technical Skills

Languages: HTML, TypeScript, JavaScript, CSS, PHP
Styling & UI: CSS, TailwindCSS, shadcn-ui, Styled-Components
Frameworks & Libs: React.js , Redux, React-Router, React-hook-forms
Industry Knowledge: Internet Technologies, Networks, Database Systems
Microsoft Office Suite: Word, PowerPoint, Excel

Soft Skills

Fluent English & Arabic Problem Solving
Information Communication
Presentation
Time Management
Fast Learning
